AGE OF FANTASY: BATTALION

All units are multibased.

Heroes don't join units.

Damage is marked by dice, not by removing individual models.

Armies are deployed by more than 24" from each other.

Game last **4 rounds**.

Every battle round is **started by random side** :
Roll d6; uneven result player1 start, even player2.

Alternate units deployment and activation **"1 me – 1 you"**.

If one side has more units, they activate all remaining units, then round end.

You can mark units with token or use **deck of card with every unit** taking part in battle.

When you activate unit, you reveal corresponding card. After each round you take all card back to hand.

If activated unit didn't attack (or cast spell), place the **unit card sideways**, on the side of the table. **It means unit is not Fatigue**. It became important for melee fights, if unit get charged later.

Attacking unit roll **Attack** number of dice and need to roll **more or equal** than target **Defense** to wound it.

6 is always wound or pass morale.
1 is always saved or failed morale.

Defense value in brackets, is used against shooting attacks.

Tough value its number of wounds unit must take, to become destroyed and removed from game.

Taking damage don't affect unit efficiency. It still attacks with the same number of attacks.

By default, all **units move 6" and rush/charge 12".**

By default, all **Morale check are pass on 4+.**

GOLDEN RULE

When doing any attack, take all dice for attack, and roll them immediately! **RIGHT NOW**.

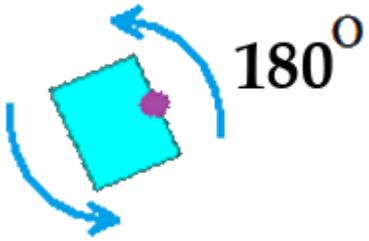

Don't wait to:
- check unit stats
- calculate outcomes
- or check for covers

do all the above **after the roll!**

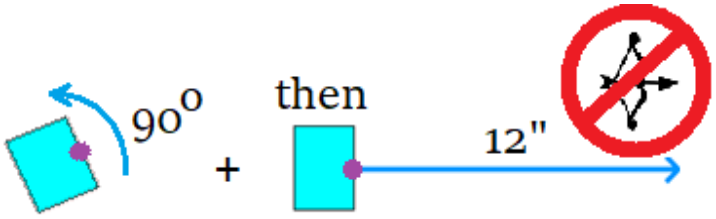

Orders

Player chooses 1 not activated yet unit. Then he issues this unit, one of the 4 following move orders:

- **Hold** –
  don't move, but can pivot 180°.
  Can shoot or use skill after.

- **Rush** –
  pivot up to 90 °, then move 12".

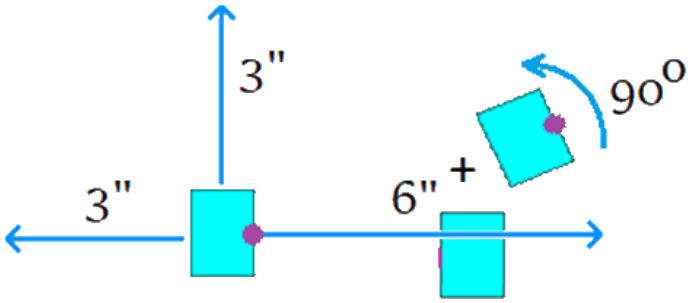

You cannot Rush if there is any unit or obstacle on the path.

You cannot shoot (cast spell), nor use skill after Rush.

- **Advance** –
  - pivot 90°, anytime during 6" move,
    OR
  - sidestep/backstep 3" (half speed).

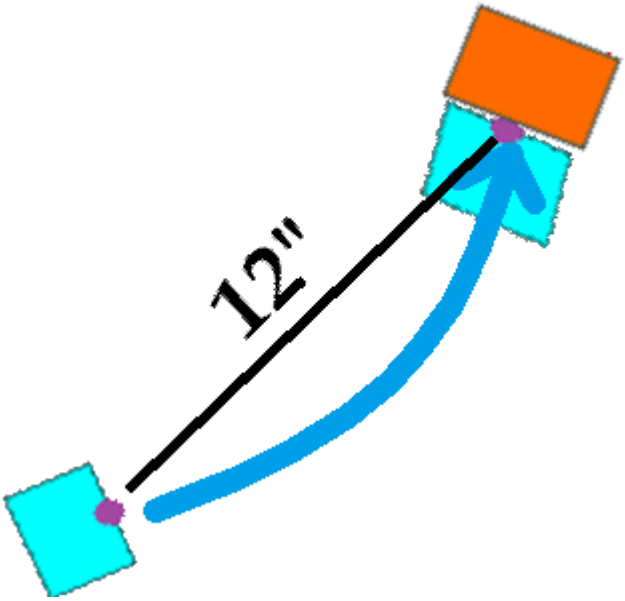

You can move over own unit, small obstacles and shoot or use skill after.

- **Charge** –
  Need target in front arch and LoS from own center points at front edge to any point of the target, at the time of activation.

Move unit up to 12", and adjust to touch the enemy unit base.

Charge range is reduced to 6", if it's done through obstacle.

AGE OF FANTASY: BATTALION

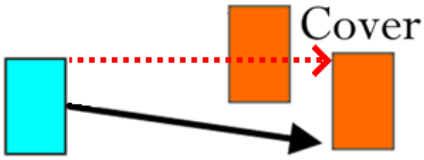

Shooting

Unit cannot shoot after Rush or Charge order.

Unit can only shoot at targets that are in front arch at the time of activation (before move or pivot), and have **a Line of Sight from base center to target.**

Take and roll number of Dice equal to range Attack value. Each value higher or equal than target Defense will deal 1 wound.

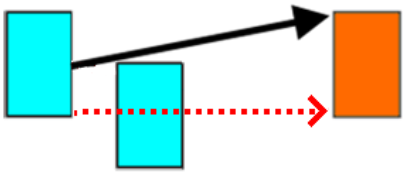

Target is in **Cover** (target gain +2 Evasion), if you can make line from any point of own base to any part of target front, that is obstructed by any obstacle or unit.

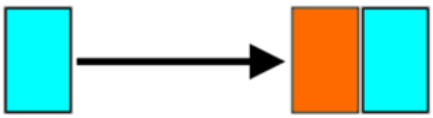

Friendly Fire

you can shoot to engaged in melee or covered by own unit targets.

Apply **Cover** penalty to shoot (from being Cover by own unit), and every dice value of "1", wounds your own unit (no Evasion save from Cover).

Cover + Friendly Fire

Sometimes the LoS is covered by enemy units. In this case enemy units still provide Cover to the target. But the values of 1 do NOT hit the enemy unit.

Spell casting

Spells are shooting attacks, that by default have 18" range and need LoS to the target.

Spell casting is always successful. All spells ignore covers and never hit friendly on LoF.

Wizards can't dispel enemy spells, unless they have special rule Dispel.

Spell Cycle: You cannot use again the same spell, until other spells are also cast.

Discard spell: after activating, not Fatigue Wizard may discard one spell, as if the spell was **cast**.

Enchants stay on unit whole game (mark target with token).

Unit may have only one type of enchant effect.

Enchants don't stack with unit own abilities. Use higher value.

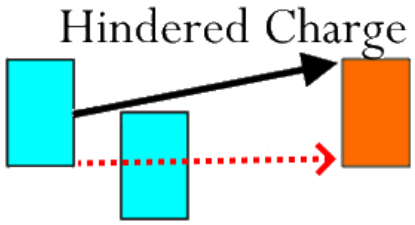

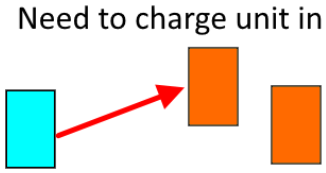

Charge

Two units can end in melee fight, only if one charge another.

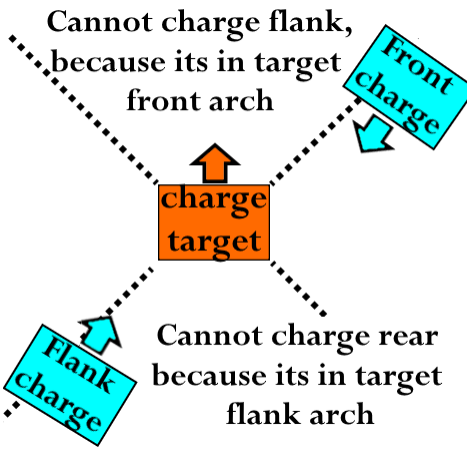

Hindered charge (target gain +2 Evasion) is if there is any line from unit base to the charge target base that is obstruct by other units, terrain or uphill.

If the target is covered by opponent unit, you cannot charge the target.

Flanking:
Charging unit need to be FULLY in target flank arch, at the time of activation, to land a flank charge.

Attacking flank (rear) grant +1 (+2) CR and Evasion +2 (from target attacks).

Melee

Melee combat is resolved simultaneously.

Both units attack each other with melee weapons at the same time and use up their Activations (cannot take any other orders in this round).

Unit strike with all attack types, if has many.

Prolonged combat
After charge, units stay engaged in melee combat for the next round. Units only disengage if one side fled or is destroyed.

Activated unit must attack opponent he is engage with melee combat.

Flanked units that have clear front, when activated (or attacked by opponent in flank, in prolonged combat), can turn his front to face the enemy.

Shooting reaction to charge
Front charged, not Fatigue unit with range weapon can use range attack instead melee for 1st round of combat.

Counter-Charge
Fast, not Fatigue unit can counter-charge opponent in front arch, if the charge is made further than 6".
Both units meet in in the middle and benefit from Impacts.

Evasion

Evasion is a second save roll after checking Defense.

Fatigue - unit is Fatigue if it already attacked (or cast spell, use skill etc.) this turn.

Enemy gain Evasion +2 against melee attacks of Fatigue unit.

Evasion is added up. Active player rolls again to overcome Evasion, for each 4successfully overcome Defense checks.

Evasion	Active player rolls to wound
1	2+
2	3+
3	4+
4	5+
5	6+

	Evasion from:
+2	Fatigue opponent
+2	opponents Hindered Charge
+2	being shoot while in Cover
+2	Flanked opponent
+1	being a Loner
+1	being shoot by Artillery

Morale

Single dice 4+ check. Test if unit will have to be replace to the edge of the table.

After some spells cast or skill use; effect of spells may require to test Morale. If effect of special rule is not specified, failed Morale force unit to Flee.

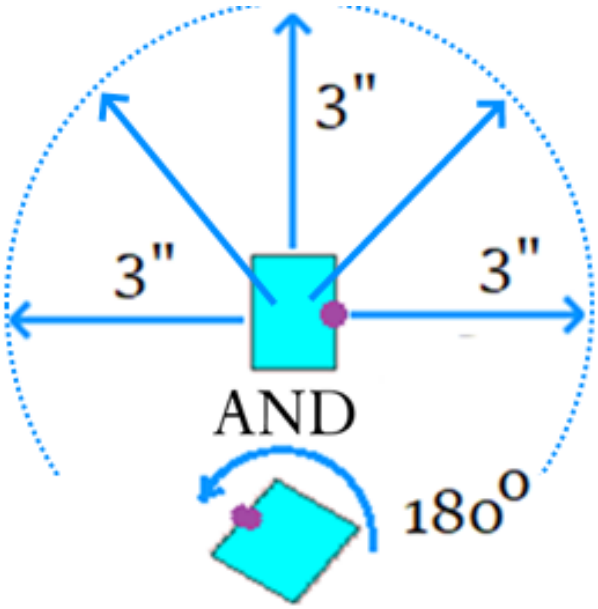

After shooting; target test Morale, only if takes 3 wounds or more from one shooting.

After every melee combat; Each player may decide that he want his unit to Flee (active player declare first). If so, then there is no Morale check, and opponent **Regroup**.

Otherwise **compare caused wound increased by Combat Resolution (+CR)** by both sides. Loser will make Morale check.
If it's a tie - no one do the test.

Regroup – if opponent is destroyed or fled from melee, move 3" anywhere (front, back or sidestep) and pivot 180.

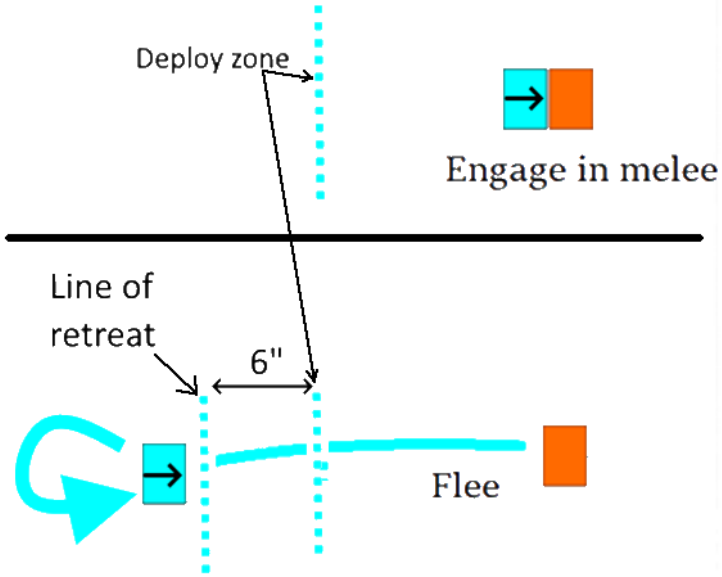

Place unit 1" away from others.

Failed Morale test force unit to Flee, even if unit was already activated.

Fleeing units disengage from all melee combats and are placed 6" behind the deployment line (edge of table).

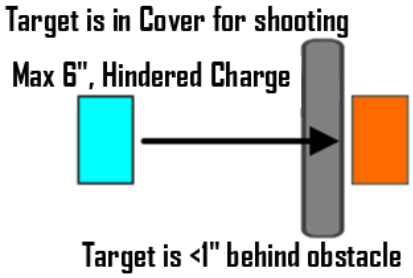

Fleeing unit lose activation this round (in case of being shoot).

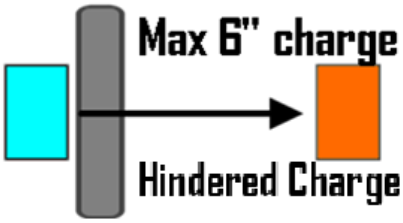

Terrain

Obstacles
[low wall] -
Unit cannot Rush through obstacles.

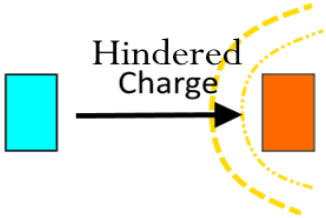

Unit is in Cover behind obstacles, if its max 1" away from it. Units shoot without penalty through obstacles to targets futher away then 1" from obstacle.

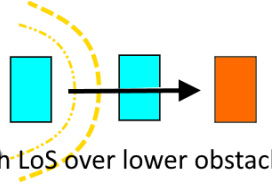

Charging through obstacles is a Hindered Charge with limited movement to 6".

Different Elevation [hill] – Charging targets up hill is a Hindered charge.

Unit can shoot over other unit or obstacles down the hill.

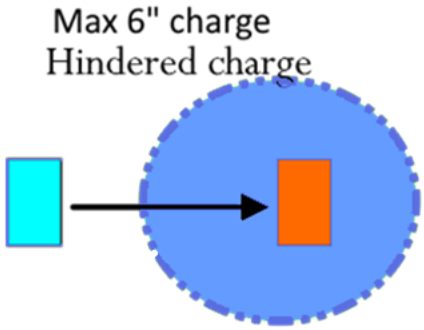

Gain LoS over lower obstacles/units

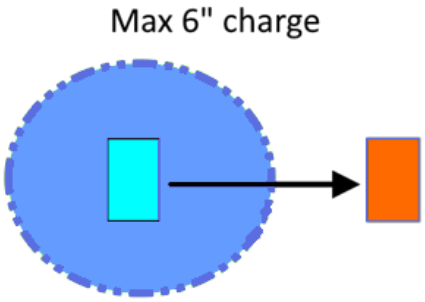

Difficult Terrain
[marsh, shallow water]–

All units passing through Difficult Terrain move no more than 6" (including charges).

All charges that end in Difficult Terrain are Hindered.

LoS is not broken, both unit can normally shoot each other.

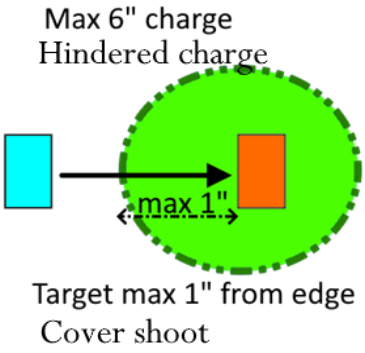

Covering Terrain
[forest]–

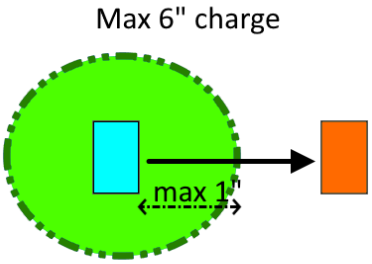

All units passing through Covering Terrain move no more than 6" (including charges).

All charges that end in Covering Terrain are Hindered.

Shooting targets inside Covering Terrain are in Cover.

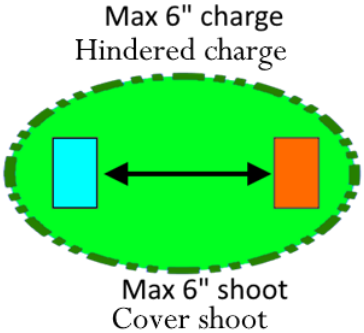

Unit can charge/shoot and be charged/shoot, only if it's no more than 1" from the edge of the terrain, otherwise LoS is broken.

Unit max 1" from edge

Except if both units are inside the same Covering Terrain; then max shooting range is no more than 6".

Special Rules

Each dice can be rerolled only once.
All rules with (x), have default value 1.

Weapon profiles:

AP (X) – Armor Piercing; reduce Defense by (X).

Phalanx(X) – add (X) attacks when is charged from front.
Impact (X) – add (X) attacks when charge.
Rage (X) – add (X) attacks if unit is already engaged in melee.
Above 3x rules have default value 3.

Deadly (X) – each wound is multiplied by (X). Default is D2.
Poison – for each roll of 6, target take another wound (take 2 wounds for this dice).
Indirect – can shoot without LoS, but target is in Cover.
Reload (x) – -(x) Attack after Move or Pivot.
Sharpshooter - if don't move (nor pivot), wound on 2+.

Unit special rules:

CR – increase Combat Resolution.
Valiant – unit pass Morale on 3+.
Timid - unit pass Morale on 5+.

Fear – enemy need to pass Morale check, to charge this unit. Don't affect other units with Fear.
No retreat – must auto-pass Morale for fleeing, and take 1 wound.

Slow – move 4" / rush or charge 8"
Fast – move 9" / rush or charge 18". Can Counter-charge.
Instead 6"/12" move.

Strider – ignore terrain move penalty, never gain Hindered charge penalty
Flying – jump over units and terrain.
Stealth – cannot be charge or shoot from further than 6". Unit don't block LoS. All other units can shoot, move and charge through Stealth unit.

Regeneration – remove 1 wound at the start of each round.
Evasion (X) – additional Save roll of (X), after failed Defense save roll.

Loner – doesn't have flank. Grant Nimble. *Unit has +1* Evasion *Save (6+). This rule is for heroes on foot or on horse.*
Nimble – turn 180 degrees, before doing any other order. Can charge or shoot after.

Survivor– after death place rider on foot unit on its place.
For heroes riding big monsters.

Leadership (X) - in 6" ally units roll 2x dice for Morale tests, and chose better result.

Before action, can activate at once (X) friendly units in 6". If target unit was already activated, it may only Pivot 90° instead. Then commander make a non-Rush action.

Leadership unit has +1 Morale (pass on 3+).

Subordinate – this unit can be activated by Leadership skill anywhere on the table.

Artillery – increase target Evasion by 1. Immune to attacks with Deadly. 6 Defense vs range attacks. No Retreat. Cannot move, but can pivot if don't shoot.

Ambush – don't deploy. When activated in 1st round roll D6. On 4+ unit emerge in any chosen place. Otherwise emerge in 2nd round. After emerge cannot do any orders nor attacks, till next round.
Scout – deploy after all other units. Move 12" for free.

Wizard – once per round can cast any spell from army list.
Grand Wizard – can cast any two spells per round.

Overrun – after won charge, move unit pass target 6" and pivot 90 degrees.

Other army specific special rules:
Retreat –in 6" can force own (engage or not) unit to flee
Slayer - +AP vs monsters
Dispel – can try to cancel, anywhere, one enemy spell per round, by rolling on 1d6: 4+. Only get Fatigue, if successfully Dispel.
Ignore cover
Engineer – reroll artillery hit dice. 3" range.
Coward - unit pass Morale on 6+.
Stubborn– cannot decide to Flee. Need to make morale roll.
Unbreakable – must auto-pass Morale.
Toxic X – reroll X save Defense rolls.

Equipment

Shield	+1 Defense vs Shooting
Shield & hand weapon	+1 CR
Paired Weapons	+3 Rage
Spear	+3 Phalanx
Great Weapon (halberds)	AP (1)
Lance	+3 Impact
Horse	+1 Tough, Impact (0.5), Fast

Shields grant more Defense for less armored units against shooting attacks. Unarmored troops tend to have lower Defense against projectiles. Artillery and machines have 6 Defense against shooting attacks.

Throwing weapon	12"	
Short range, spells	18"	
Bow	24"	Indirect
Crossbow	24"	AP(1), Reload
Rifle	24"	AP(2), Reload(2)
Long range	36"	
Artillery	48"	

Banner	+1 Morale (pass on 3+)
Music	+1" Advance move
Champion	+1 Attack (+1 dice for 1 attack type)
Commander	Subordinate
Medic	Regeneration, if unit didn't attack previous round.

	Defense	**Monsters**
2	Unarmored	
3	Protective gear	
4	Heavy armor	Unarmored
5	Best armor (magic)	Protective gear
6		All Giants

AP	
1	Core units with 2h weapons. Beasts.
2	Big monsters
3	Artillery
4	Armor Negating (spells)
